

BrightPath Digital Employee Handbook

Sample PDF for the RAG Document Chatbot YouTube tutorial

This fictional handbook is created for demonstrating PDF upload, text extraction, chunking, embeddings, semantic search, and grounded question answering in a RAG application.

Document version: 1.0 | Effective date: 1 August 2026

1. Company Overview

BrightPath Digital is a fictional technology consulting company that builds web applications, cloud platforms, automation tools, and data solutions. The company headquarters is located in Bengaluru, India. BrightPath Digital was founded in 2020 and has approximately 620 employees.

The company aims to make digital products simple, reliable, secure, and accessible for customers.

2. Working Hours

The standard working week is Monday to Friday. Core collaboration hours are from 10:30 AM to 4:30 PM Indian Standard Time. Employees may begin work between 8:30 AM and 10:30 AM, provided they complete their agreed daily hours and attend required meetings.

Employees working remotely must remain available during core collaboration hours through approved company communication tools.

3. Hybrid Work Policy

Eligible employees may work remotely for up to two days per week. Team managers may request additional office attendance during customer workshops, release planning, security reviews, training sessions, or important team events.

Employees must use company-managed devices, enable multi-factor authentication, and use the approved virtual private network when accessing internal systems outside the office.

4. Leave Policy

Leave type	Annual allowance	Important condition
Paid vacation	20 working days	Manager approval required
Sick leave	8 working days	Medical note after 2 consecutive days
Casual leave	5 working days	For urgent personal needs
Parental leave	As per local law	Contact Human Resources

Planned leave longer than four working days should normally be requested at least ten days in advance. Leave requests are submitted through the employee self-service portal.

5. Learning and Development

Every full-time employee receives an annual learning budget of INR 20,000. The budget may be used for approved technical courses, professional certifications, books, conferences, and job-related workshops.

Reimbursement requests must include the invoice, proof of payment, and a short explanation of how the learning activity supports the employee's current role or development plan.

6. Equipment and Technical Support

New employees receive a company laptop, charger, headset, and security token when required. Standard equipment is replaced every four years unless an earlier replacement is approved because of hardware failure or a role-specific need.

Technical support is available through the internal help desk from 8:30 AM to 7:30 PM on working days. Critical production incidents can be reported through the emergency support channel at any time.

7. Information Security

Employees must not share passwords, API keys, customer data, confidential files, or internal documents through personal email accounts or unapproved messaging platforms.

Any suspected phishing message, lost device, accidental data exposure, or unauthorized system access must be reported to the Information Security team within two hours of discovery.

8. Responsible Use of AI

Public generative AI tools must not receive confidential customer information, private source code, employee personal data, login credentials, or unpublished financial information.

AI-generated content must be reviewed by a responsible employee before it is used in customer deliverables, production code, legal documents, recruitment decisions, or financial analysis.

Approved AI tools may be used for brainstorming, drafting, code explanation, test generation, summarization of non-confidential material, and productivity assistance.

9. Code of Conduct

BrightPath Digital expects respectful and inclusive behavior in all work settings. Harassment, discrimination, retaliation, bullying, and deliberate exclusion are not permitted.

10. Travel and Expense Policy

Business travel must be approved before booking. Economy class is the default for flights under seven hours. Premium economy may be approved for flights longer than seven hours.

Expense claims must be submitted within 21 days of the expense date. Receipts are required for individual expenses above INR 750.

11. Performance Reviews

Formal performance reviews are conducted twice each year, in May and November. Employees and managers discuss goals, achievements, development needs, and priorities for the next review period.

Performance ratings should be supported by evidence and should consider both results and professional behavior.

12. Useful Test Questions

- How many days per week can eligible employees work remotely?
- What are the core collaboration hours?
- How much is the annual learning budget?
- When must a security incident be reported?
- Can confidential customer data be entered into public AI tools?
- How often are formal performance reviews conducted?
- What is the receipt requirement for expenses above INR 750?
- When should planned leave longer than four days be requested?
